## PROFILE

---

A passionate and dedicated Web Enthusiast with a strong desire to learn and develop skills in this field. Proficient in both front-end and back-end technologies such as Laravel, CI3/4, ReactJs, NodeJs, and NextJs, and experienced in using CSS frameworks like Bootstrap and Tailwind CSS. Eager to contribute and continuously learn in both collaborative team environments and individually.

## EDUCATION

---

**Universitas Pendidikan Indonesia – Bandung, Indonesia** 2021 – present  
S1 – Computer Science (GPA: 3.81/4.00)

**SMK Negeri 13 Bandung** 2018 – 2021  
Computer & Network Engineering (GPA: 90.3/100)

## EXPERIENCE

---

**PT. Jasamedika Saranatama – Bandung, Indonesia** January 2024 – Mei 2024  
Backend Developer & Frontend Developer

- Understanding and implementing the concept of Object and Key Result in performing tasks
- Debugging existing programs, identifying and fixing errors or bugs found to improve application performance and stability.
- As a Back-end, Creating an API for SIRs using Express.js as the framework and MongoDB as the DBMS.
- As a Front-end, Creating a website using ReactJS and TailwindCSS as framework, Figma as design tools, and Katalon, JMeter for testing.
- Creating user documentation such as manual books, style guides, README files, and other project documentation.

**Sixth Projects – Bandung, Indonesia** October 2023 – December 2023  
Project Manager & Full Stack Developer

- Trusted to work with SMKN 13 Bandung in developing the “SISPEK13” website as the school organization's profile.
- Integrating authentication and authorization services with Laravel and MySQL on the Back-end, while developing the website using TailwindCSS on the Front-end.
- Designing, creating, presenting daily progress, testing, and deploying the website to the server using CPanel.

**PT. GITS Indonesia – Bandung, Indonesia** August 2023 – December 2023  
Full Stack Developer (Online Courses -MSIB)

- Implemented Scrum methodology with Trunk-Based Development approach, combining iterative and incremental development with continuous integration and collaboration principles in software development.
- Implementing business logic and website development using Laravel assisted by TailwindCSS to design a responsive and modern user interface.

- Integrating multiple uses of external APIs and technologies such as authorization & authentication systems, and queue systems (Redis).
